

IN THE SPECIFICATION

Please amend the last two paragraphs of the Brief Description of the Drawings as shown and add the additional two paragraphs:

Figure 5 is a flowchart that illustrates a method for amplifying a received signal in a transceiver according to one embodiment of the present invention; and

Figure 6 is a functional block diagram of a transceiver formed according to one embodiment of the present invention;

Figure 7 is a functional schematic diagram of a transceiver formed according to one embodiment of the present invention; and

Figure 8 is a functional schematic diagram of an automatic frequency control (AFC) circuit formed according to one described embodiment of the invention.
